NHS services

A direct NHS referral by post or nhs.net email is accepted for patients wishing to be seen at Optegra for cataract, YAG or wet AMD.

Cataract – Please note that private referral is needed for patients seeking enhanced refractive correction eg multifocal IOLs. For NHS patients Optegra offers optometrists the opportunity to provide post-cataract review appointments using ‘Optomanager’. ‘Optomanager’ can also be used to make referrals to Optegra in areas where a pre-cataract service is offered. To be involved, please contact your LOC.

Yag Capsulotomy for post cataract PCO

Wet AMD - Optegra have a two-week pathway for new urgent wetAMD referrals. In addition to this fast-track service Optegra provides NHS treatment for wetAMD patients who need ongoing reviews.
